### Assessment Question

How did the “Bloomer Costume” aide Julia Archibald Holmes in crossing through Kansas, climb Pikes Peak, and allow her to spread the ideals of the Suffragette movement?

### Contextual Paragraph

This lesson coincides and is paired with the Colorado Springs Pioneers Museum exhibit “The Story of Us,” for the letter B-Bloomer Girl. It will tie Western Expansion creating a network bringing Eastern US ideals/ideology to the West, changing the social landscape.

- **Please note:** If you are planning a trip to the Pioneer’s Museum to have your students experience the SOU exhibit in person, please make sure to contact Meg Poole at the museum at least 2 weeks before your intended visit. This helps to ensure that someone is available to greet you and to help you navigate the museum. Contact info: mpoole@springsgov.com and/or 719-385-5631

Within the lesson we will utilize skills to:

- analyze maps providing information to support their findings about the “Bloomer Costume” being beneficial for the terrain covered by Julia Archibald Holmes
- infer information from multiple sources to prove that their responses
- provide elements from the text(s) to support their answers utilizing primary sources

### Document Title

**Map of the United States west of the Mississippi showing routes to Pike’s Peak…**

### Document Set

GUIDING QUESTIONS: Locate Lawrence, Kansas on the map. Find a route or multiple routes that Julia A. Holmes could have used to get to Pike’s Peak.

1. What do you observe about the map? No opinions, conclusions, or background knowledge-just straight observations
2. Why would the Lawrence party choose a particular route and the contributing factors as to why they would choose one route over another?

Example of map guiding questions is included at the end of lesson.

Choose the Satellite image (below the orange “Map Layers” key) to see the terrain in which Julia would have crossed (let the students know that this is a current image of the terrain). This will give a mental picture for the landscapes she would have come across without the city being present.

GUIDING QUESTIONS:

Scroll down to “Women’s Suffrage in the West.” Click on each of the primary sources to read the synopses focusing on the two maps provided.

1. What do you notice about the maps? List similarities and differences stating observations with no opinions, conclusions, or background knowledge—just straight observations.
2. How do these observations compare to the prior observations with the map showing the routes to Pikes Peak?
3. What conclusions can you come up among the three maps provided? Support your answers through the use of the maps.

Assessment Question

How did the “Bloomer Costume” aide Julia Archibald Holmes in crossing through Kansas, climbing Pike’s Peak, and allowing her to spread the ideals of the Suffragette movement?

Elements of Responses:

- Fluidity of movement, split leg pantaloons under shorter skirt, not as heavy, lost the hoop/crinoline under the skirts
- No longer constrained by society’s norms on what women should wear
- If loosen up society’s norms on dresses for women, this would allow women to think for themselves
- Open to interpretation

Suggestions for Guiding Map Questions (digging deeper into map exploration)

1. How was the map created? (computer, hand drawn, already created but added layers-editing-comments, etc.)
2. What year and by whom was the map created?
3. What type of map is represented? (atlas, climatic, physical, political, street, relief, thematic, topographical, etc.)
4. Does it have a key or legend, if so, what is shown within this key?
5. Is a compass rose on the map? If not, where would the cardinal directions be located on the maps?
6. Could the map be used as a primary (done at the time an event/something is occurring) or secondary (created after the fact or by someone who wasn’t present during the event) resource?
7. Does it represent the information being asked?
8. Look at the validity of the information being represented-Does it have valid “meta data” (information utilized to create the map)?
